HERBARIUM OF HARVARD UNIVERSITY,
BOTANIC GARDEN, CAMBRIDGE, MASS.

June 6 1880.

My Dear Mr. James

I have had an interview with Cassino, and have arranged terms on which he will bring out the MOSSES. — the printing to be done in Cambridge, either at the Riverside or Wilson's Press.

I have a form of written agreement from Cassino, which, however, needs some alteration. I want you to furnish drawings for the new Plates. — & he will have it engraved on copper. He says all volumes of Eaton's out, gives you 50 copies. — & then sells remainder of a print ed. of 750 to secure his copyright

at rate to be settled, on all copies sold after that.

How does this strike you?

Very truly Yours

Asa Gray

Knowing there are two we could ask our Scotch publishers if they would do as well, or better.
